New enrollments or coverage changes will only be processed in certain circumstances. Those circumstances are described below.

3.8 Initial enrollment

Once eligible for coverage, potential Members have 31 calendar days to enroll and provide required documentation for themselves and their Dependents in the Plan.

It should be emphasized that coverage begins only after an individual has successfully completed the enrollment process by submitting a completed election and providing any required documentation within 31 days. Benefits will be effective as referenced on the following table. Documentation may be required.

The table below lists pertinent information related to the initial enrollment process.

3.9 Open Enrollment

Before the start of a new Plan Year, Members are given a certain amount of time during which they may change coverage options. Potential Members may also elect coverage at this time. This period is called Open Enrollment.

In general, Open Enrollment for Eligible Employees, Retirees and Former Elected Officials is held in October or November of each year.

At the beginning of each year’s Open Enrollment period, enrollment information is made available to those Eligible for coverage under the Plan. This information provides details regarding changes in benefits as well as whether a current Member is required to re-elect his/her coverage during Open Enrollment (called a “positive” Open Enrollment).

Elections must be made before the end of Open Enrollment. Those elections – or the current elections, if no changes were made and it was not a positive Open Enrollment – will be in effect during the subsequent Plan Year.

Coverage for all groups begins on the first day of the new Plan Year.

It should be emphasized that coverage options change only after an individual has successfully completed the enrollment process by submitting a completed election form and providing any required documentation within 31 days of the end of the Open Enrollment period.

3.10 Qualified Life Event Enrollment

If a qualified life event occurs, Members have 31⁴ days to enroll or change coverage options.

Changes made as a result of a qualified life event must be consistent with the event itself, except in the case of HIPAA Special Enrollment.

It should be emphasized that coverage options change only after an individual has successfully completed the enrollment process by submitting a completed election form and providing any required documentation within 31 days of the qualifying event.

State Employees should contact the appropriate agency liaison when they choose to change coverage options as a result of a qualified life event. University and political subdivision

³ Eligibility is subject to A.R.S. § 38-802.

Employees should contact the appropriate human resources office. Retirees and Former Elected Officials should contact ADOA Human Resources-Benefits.

For state Employees, most coverage changes become effective on the first day of the first pay period after completion of the enrollment process. For Retirees and Former Elected Officials, most coverage changes become effective on the first day of the first month after completion of enrollment. University and political subdivision Employees should contact the appropriate Human Resources Office for information regarding the effective date of coverage changes.

If you request a change due to a HIPAA special enrollment event within the 31-day timeframe, coverage for birth, adoption, or placement for adoption will become effective on the date of birth, adoption or placement for adoption. For all other HIPAA Special Enrollment events, coverage will become effective the first day of the next month following your request for enrollment.

A Surviving Spouse/Dependent must submit a completed election form and provide any required documentation within six months of the death of the insured Retiree or insured Employee eligible for retirement under the ASRS. A Surviving Spouse/Dependent of an Elected Official or Formal Elected Official has 31 days to complete the election form and provide required documentation.

When ADOA Human Resources-Benefits determines that a change in cost is significant, a Member may either increase his/her contribution or elect less-costly coverage.

3.12 Termination of Coverage

Coverage for all Members/Dependents ends at 11:59 p.m. on the date the Plan is terminated. Termination of coverage prior to that time is described in the table below. 3.13 Continuing Eligibility through COBRA

Eligibility of Enrolled Members/Dependents

In accordance with the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA), a Member/Dependent who has had a loss of coverage due to a qualifying event may extend his/her coverage under the Plan for a limited period of time.

To be eligible for COBRA coverage, a Member/Dependent must be covered under the Plan on the day before the qualifying event. Each covered individual may elect COBRA coverage separately. For example, a Dependent Child may continue coverage even if the Member does not.

Members and Dependents would be eligible for COBRA coverage in the event that the state of Arizona files bankruptcy under Title 11 of the U.S. Code.

The table below lists individuals who would be eligible for COBRA coverage if one of the corresponding qualifying events were to occur.

Category	Duration of COBRA coverage	Qualifying event
Eligible Employee, Dependent	Up to 18 months ¹⁰	<ul style="list-style-type: none"> • Voluntary or involuntary termination of Member's employment for any reason other than "gross misconduct"; or • Reduction in the number of hours worked by Member (including retirement)¹¹.

Dependent Child	Up to 36 months	<ul style="list-style-type: none"> • Dependent Child no longer meets eligibility requirements.

3.14 Subsequent Qualifying Events

An 18-month COBRA period may be extended to 36 months for a Dependent if:

- Member dies; or
- Member and Dependent Spouse divorce or legally separate; or
- Dependent Child no longer meets eligibility requirements.

This clause applies only if the second qualifying event would have caused the Dependent to lose coverage under the Plan had the first qualifying event not occurred.

3.15 Eligibility of Newly Acquired Eligible Dependents

If the Member gains an Eligible Dependent during COBRA coverage, the Dependent may be enrolled in the Plan through COBRA. The Member should provide written notification to ADOA Human Resources-Benefits within 31 days of the qualifying life event. Newly acquired Dependents may not enroll in the COBRA coverage after 31 days.

3.16 Special Rules Regarding Disability

The 18 months of COBRA coverage may be extended to 29 months if a Member is determined by the Social Security Administration to have a disability at the time of the first qualifying event or during the first 60 days of an 18-month COBRA coverage period. This extension is available to all family members who elected COBRA coverage after a qualifying event.

To receive this extension, the Member must provide ADOA Human Resources-Benefits with documentation supporting the disability determination within 60 days after the latest of the:

¹⁰ If the Member and/or Dependent has a disability when he/she becomes eligible for COBRA or within the first 60 days of COBRA coverage, duration of coverage may be extended to 29 months. See Section 3.16 for Special Rules Regarding Disability.

¹¹ If the member takes a leave of absence qualifying under the Family and Medical Leave Act (FMLA) and does not return to work, the COBRA qualifying event occurs on the date the member notifies ADOA that he/she will not return, or the last day of the FMLA leave period, whichever is earlier.

- Social Security Administration disability determination;
- Qualifying event; or
- Date coverage is/would be lost because of the qualifying event.

3.17 Payment for COBRA Coverage

Participants who extend coverage under the Plan due to a COBRA qualifying event must pay 102% of the active premium. Participants whose coverage is extended from 18 months to 29 months due to disability may be required to pay up to 150% of the active premium beginning with the 19th month of COBRA coverage.

COBRA coverage does not begin until payment is made to the COBRA administrator. A participant has 45 days from submission of his/her application to make the first payment. Failure to comply will result in loss of COBRA eligibility.

3.18 Notification by the Member/Dependent

COBRA coverage cannot be elected if proper notification is not made. Under the law, the Plan must receive written notification of a divorce, legal separation, or Child's loss of Dependent status, within 60 days of the later of the:

- Date of the event; or
- Date coverage would be lost because of the event.

Notification must include information related to the Member and/or Dependent(s) requesting COBRA coverage. Documentation may be required.

Written notification should be directed to:

ADOA Human Resources-Benefits
100 N. 15th Avenue, Suite 301
Phoenix, AZ 85007

3.19 Notification by the Plan

The Plan is obligated to notify each participant of his/her right to elect COBRA coverage when a qualifying event occurs and the Plan is notified in accordance with Section 3.18.

3.20 Electing COBRA Coverage

3.21 Early Termination of COBRA Coverage

The law provides that COBRA coverage may, for the reasons listed below, be terminated prior to the 18-, 29-, or 36-month period:

- The Plan is terminated and/or no longer provides coverage for Eligible Employees;
- The premium is not received within the required timeframe;
- The Member enrolls in another group health plan; or
- The Member becomes eligible for Medicare.

For Members whose coverage was extended to 29 months due to disability, COBRA coverage will terminate after 18 months or when the Social Security Administration determines that the Member no longer has a disability.

ARTICLE 4

PRE-CERTIFICATION/PRIOR AUTHORIZATION AND NOTIFICATION FOR MEDICAL SERVICES AND PRESCRIPTION MEDICATION

4.1 Pre-Certification/Prior Authorization and Notification

Pre-Certification/Prior Authorization is the process of determining the Medical Necessity of services before the services are incurred. This ensures that any medical care a Member receives is a covered benefit under the Plan and that it meets the Medical Necessity requirements of the Plan. The definition and requirements of Medical Necessity are identified in Article 16. Pre-Certification/Prior Authorization is required if the Plan is considered primary as defined in Article 10. Pre-Certification/Prior Authorization is initiated by calling the toll-free Pre-Certification/Prior Authorization phone number shown on your ID card and providing information on the planned medical services. Pre-Certification/Prior Authorization may be requested by you, your Dependent or your Physician. However, the Member is ultimately responsible to ensure Pre-Certification/Prior Authorization is obtained.

All decisions regarding medical care are up to a Patient and his/her Physician. There may be circumstances when a Patient and his/her Physician determine that medical care, which is not covered by this Plan, is appropriate. The Plan Sponsor and the Third Party Claim Administrator do not provide or ensure quality of care.

Pre-Certification/Prior Authorization should be initiated for specific services noted in the Plan Description by calling the Third Party Claim Administrator Customer Service Center and providing information on the planned medical services. The patient or the physician/facility may request Pre-Certification/Prior Authorization; however, the Member is ultimately responsible to ensure Pre-Certification/Prior Authorization is obtained.

If Pre-Certification/Prior Authorization is not obtained before planned medical services are incurred, the submitted claim will pend and a letter will be issued notifying you and the provider that Pre-Certification/Prior Authorization is required before claim processing can continue. This must be initiated by calling the Third Party Claim Administrator and providing information on the incurred medical services. If Pre-Certification/ Prior Authorization is not initiated within 60 days of the first pend letter, the claim will be denied and you may be liable for the payment of some or all medical costs incurred.

4.2 Medical Services Inpatient Admissions

Pre-Certification/Prior Authorization for inpatient admissions refers to the process used to certify the medical necessity and length of any hospital confinement as a registered bed patient. Pre-Certification/Prior Authorization is performed through a utilization review program by a Third Party Claim Administrator with which the State of Arizona has contracted. Pre-Certification/Prior Authorization should be requested by you, your Dependent or an attending physician by calling the Pre-Certification/Prior Authorization phone number shown on

your ID card prior to each inpatient hospital admission. Pre-Certification/Prior Authorization should be requested, prior to the end of the certified length of stay, for continued inpatient hospital confinement.

You should start the Pre-Certification/Prior Authorization process by calling the Third Party Claim Administrator prior to an elective admission, prior to the last day approved for a current admission, or in the case of an emergency admission, by the end of the second scheduled business day after the admission. The Third Party Claim Administrator will continue to monitor the confinement until you are discharged from the hospital. The results of the review will be communicated to the Member, the attending Physician, and the Third Party Claim Administrator.

The Third Party Claim Administrator is an organization with a staff of Registered Nurses and other trained staff members who perform the Pre-Certification/Prior Authorization process in conjunction with consultant Physicians.

4.3 Notification of Maternity Services

While Pre-Certification/Prior Authorization is not required for maternity services in the physician's office, outpatient, and inpatient within federally mandated stay limits, we encourage you to contact the Third Party Claim Administrator if you will be receiving any maternity services. This will assist in the Pre-Certification/Prior Authorization process should inpatient services be required that exceed 48 hours for a normal delivery and 96 hours for a cesarean section. The Third Party Claim Administrator also has special prenatal programs to help during pregnancy. They are voluntary and there is no extra cost for taking part in the program. To sign up, you should notify the Third Party Claim Administrator during the first trimester, but no later than one month prior to the expected date of delivery. It is important that you notify the Third Party Claim Administrator regarding your pregnancy.

4.4 Notification of 23-Hour Observation Admissions

While Pre-Certification/Prior Authorization is not required for 23-hour observation admissions, we encourage you to contact the Third Party Claim Administrator if you will be receiving these services. This will assist in the Pre-Certification/ Prior Authorization process should the admission exceed 23 hours.

4.5 Other Services and Supplies

Pre-Certification/Prior Authorization should be requested for In-Network or Out-of-Network services that require Pre-Certification/Prior Authorization. Pre-Certification/Prior Authorization should be requested by you, your Dependent or your physician by calling the toll-free phone number shown on your ID card prior to receiving services. Services that should be pre-certified include, but are not limited to:

4.7 Prescription Medications

Medicare Part D participants have dual coverage. For drugs covered under Medicare Part D, the following does not apply, please refer to www.myvibrantrx.com/stateofaz. For drugs not covered under Medicare Part D the following applies.

For purposes of Member safety, certain prescriptions require “Prior Authorization” or approval before they will be covered, including but not limited to an amount/quantity that can be used within a set timeframe, an age limitation has been reached and/or exceeded or appropriate utilization must be determined. The Pharmacy Benefit Management Vendor (PBM), in their capacity as pharmacy benefit manager, administers the prior authorization process for prescription medications.

Prior Authorization (PA) may be initiated by the pharmacy, the physician, you, and/or your covered family members by calling the PBM. The pharmacy may call after being prompted by a medication denial stating “*Prior Authorization Required.*” The pharmacy may also pass the information on to you and require you to follow-up.

After the initial call is placed, the Clinical Services Representative obtains information and verifies that the Plan participates in a PA program for the particular drug category. The Clinical Services Representative generates a drug specific form and faxes it to the prescribing physician. Once the fax form is received by the Clinical Call Center, a pharmacist reviews the information and approves or denies the request based on established protocols. Determinations may take up to 48 hours from the PBM’s receipt of the completed form, not including weekends and holidays.

If the PA request is APPROVED, the PBM Clinical Service Representative will send a notification to the Member and the prescriber who initiated the request and enters an override into the

PBM claims processing system for a limited period of time. The pharmacy will then process your prescription.

If the PA request is DENIED, the PBM Clinical Call Center pharmacist will send a denial letter explaining the denial reason to the Member and the prescribing physician. The letter will include instructions for appealing the denial. For more information, see the “Appeals Procedures” section of this document.

The criteria for the PA program are based on nationally recognized guidelines; FDA approved indications and accepted standards of practice. Each specific guideline has been reviewed and approved by the PBM Pharmacy and Therapeutics (P&T) Committee for appropriateness. Types of prescription medications that require PA prior to dispensing include, but are not limited to:

1. Oncology medications;
2. Multiple Sclerosis medications;
3. Rheumatoid Arthritis medications;
4. Lipid Lowering medications;
5. Testosterone Replacement medications.

Medication(s) included in medication management programs, including but not limited to, an amount or quantity that can be used within a set timeframe or an age limitation, may be subject to PA. Medication Management programs are subject to change and are maintained and updated as medications are FDA approved within the defined therapeutic class and as clinical evidence requires. Medications subjected to quantity limits include, but are not limited to certain medications listed below:

1. Asthma/COPD Agents beyond defined quantity limitations;
2. Oral Antiemetics beyond defined quantity limitations;
3. Medications to treat insomnia beyond defined quantity limitations;
4. Medications used to treat migraine headaches beyond defined quantity limitations.

A certain class of medications will be managed through the PBM’s Specialty Pharmacy Program. For more information, on what is covered see the “Specialty Pharmacy” section of this document. Medications that may be included in this program are used to treat chronic or complex health conditions, may be difficult to administer, may have limited availability, and/or may require special storage and handling. A subset of the medications included in the PBM Specialty Pharmacy Program requires a PA.

To confirm whether you need a PA and/or to request a PA, you may call the Pharmacy Benefit Management Vendor listed on your ID card or visit the PBM website to review the formulary. Please have the information listed below when initiating your request for PA:

- Name of Medication
- Physician’s Name

- Physician's Phone Number
- Physician's Fax Number, if available
- Member ID number (from ID card)
- Rx Group ID number (from ID card)

CASE MANAGEMENT / DISEASE MANAGEMENT AND INDEPENDENT MEDICAL ASSESSMENT

5.1 Case Management

Case Management is a service provided by the Third Party Claim Administrator, which assists individuals with treatment needs that extend beyond the acute care setting. The goal of Case Management is to ensure that patients receive appropriate care in the most effective setting possible whether at home, as an outpatient, or an inpatient in a hospital or specialized facility. Should the need for Case Management arise, a Case Management professional will work closely with the patient, his or her family and the attending physician to determine appropriate treatment options which will best meet the patient's needs and keep costs manageable. The Case Manager will help coordinate the treatment program and arrange for necessary resources. Case Managers are also available to answer questions and provide ongoing support for the family in times of medical crisis.

Case Managers are Registered Nurses (RNs) and other credentialed health care professionals, some trained in a clinical specialty area such as high risk pregnancy or mental health, and others who work as generalists dealing with a wide range of conditions in general medicine and surgery. In addition, Case Managers are supported by physician advisors who offer guidance on up-to-date treatment programs and medical technology. While the Case Manager may recommend alternate treatment programs and help coordinate needed resources, the patient's attending physician remains responsible for ordering and guiding the actual medical care.

You, your Dependent or an attending physician may request Case Management services by calling the toll-free phone number shown on your ID card during normal business hours, Monday through Friday. In addition, the Third Party Claim Administrator or a utilization review program may refer an individual for Case Management.

Each case is accessed to determine whether Case Management is appropriate. You or your Dependent will be contacted by an assigned Case Manager who explains in detail how the program works.

Following an initial assessment, the Case Manager works with you, your family and physician to determine the needs of the patient and to identify what alternate treatment programs are available. (For example, in-home medical care in lieu of extended hospital convalescence.) You are not penalized if the alternate treatment program is not followed.

The Case Manager arranges for alternate treatment services and supplies, as needed. (For example, nursing services or a hospital bed and other durable medical equipment for the home.)

The Case Manager also acts as a liaison between the patient, his or her family, and physician as needed. (For example, by helping you to understand a complex medical diagnosis or treatment plan.)

Once the alternate treatment program is in place, the Case Manager continues to manage the case to ensure the treatment program remains appropriate to the patient's needs.

Case Management professionals may offer quality, cost-effective treatment alternatives, as well as provide assistance in obtaining needed medical resources and ongoing family support in a time of need.

5.2 Disease Management

Disease Management is a service provided by the Third Party Claim Administrator, which assists Members with treatment needs for chronic conditions. If you are being treated for certain conditions which have been initiated under this program, you will be contacted by the Disease Management staff with further information on the program. The goal of Disease Management is identification of areas in which the staff may assist you with education and/or resources to maintain your health.

5.3 Independent Medical Assessment

The Plan reserves the right to require independent medical assessments to review appropriateness of treatment and possible alternative treatment options for any Member participating in the Plan. The individual medical assessments may take place on site or via medical record review and will be carried out by a licensed/board certified medical doctor specializing in the area of treatment rendered to the Member. Independent medical assessments may be utilized in instances where current treatment is atypical for the diagnosis, where the current treatment is complex and involves many different providers, and/or the current treatment is of high cost to the Plan. If an independent medical assessment is required, the enrolled person will be notified in writing.

ARTICLE 6

TRANSITION OF CARE

6.1 Transition of Care

If you are a new Member, upon written request to the Third Party Claim Administrator, you may continue an active course of treatment with your current health care provider who is a Non-Participating Provider and receive In-Network benefit levels during a transitional period after the effective date of coverage if one of the following applies:

1. You have a life threatening disease or condition;
2. If you have been receiving care and a continued course of covered treatment is Medically Necessary, you may be eligible to receive “transitional care” from the Non-Participating Provider;
3. Entered the third trimester of pregnancy on the effective date of enrollment; or
4. If you are in your second trimester of pregnancy and your doctor agrees to accept our reimbursement rate and to abide by the Plan’s policies and procedures and quality assurance requirements.

There may be additional circumstances where continued care by a provider no longer participating in the network will not be available, such as when the provider loses his license to practice or retires.

Transition of Care request forms are available by contacting the Third Party Claim Administrator Customer Service Center or by visiting their website.

7.2 Determination of Eligible Expenses

Subject to the exclusions, conditions, and limitations stated in this document, the Plan will pay Benefits to, or on behalf of, a Member for covered medical expenses described in this section, up to the amounts stated in the Schedule of Benefits.

The Plan will pay Benefits for the contracted fee as determined by the Provider's contract with the Network for services and supplies which are ordered by a Physician minus all deductibles, copayments and coinsurance stated in the Schedule of Benefits. Services and supplies must be furnished by an Eligible Provider and be Medically Necessary.

For Out-of-Network Benefits, except as described below, you are responsible for paying any difference between the amount the provider bills you and the amount the Third Party Claim Administrator will pay for Allowed Amounts.

- For covered services that are Ancillary Services received at certain Network facilities on a non-Emergency basis from Out-of-Network Physicians, you are not responsible, and the out-of-Network provider may not bill you, for amounts in excess of your Copayment, Coinsurance or deductible which is based on the Recognized Amount.
- For covered services that are non-Ancillary Services received at certain Network facilities on a non-Emergency basis from Out-of-Network Physicians who have not satisfied the notice and consent criteria or for unforeseen or urgent medical needs that arise at the time a non-Ancillary Service is provided for which notice and consent has been satisfied as described below, you are not responsible, and the Out-of-Network provider may not bill you, for amounts in excess of your Copayment, Coinsurance or deductible which is based on the Recognized Amount.
- For covered services that are Emergency Health Care Services provided by an Out-of-Network provider, you are not responsible, and the Out-of-Network provider may not bill you, for amounts in excess of your applicable Copayment, Coinsurance or deductible which is based on the Recognized Amount.
- For covered services that are Air Ambulance services provided by an out-of-Network provider, you are not responsible, and the out-of-Network provider may not bill you, for amounts in excess of your applicable Copayment, Coinsurance or deductible which is based on the rates that would apply if the service was provided by a Network provider which is based on the Recognized Amount.

The obligation of the Plan shall be fully satisfied by the payment of allowable expenses in accordance with the Schedule of Benefits. Benefits will be paid for the reimbursement of medical expenses incurred by the Member if all provisions mentioned in this document are satisfied.

When covered services are received from an Out-of-Network provider as arranged by the Third Party Claim Administrator, Allowed Amounts are an amount negotiated by the Third Party Claim Administrator or an amount permitted by law. Please contact the Third Party Claim Administrator if you are billed for amounts in excess of your applicable Coinsurance, Copayment

or any deductible. The Plan will not pay excessive charges or amounts you are not legally obligated to pay.

7.3 Out-of-Pocket Maximum for Participating Provider Expenses

Out-of-Pocket Expenses are a portion of the covered expense for which the participant is financially responsible. All charges associated with a non-covered service and all charges in excess of the Recognized Amount do not apply toward the accumulation of the out-of-pocket maximum.

For Members enrolled in the Employee Only Coverage Level:

When a Member enrolled in the Plan has paid the Out-of-Pocket Maximum Expenses of \$7,350 in a Plan Year for Tier 1 and Tier 2 Participating Provider claims, benefits for Covered Expenses incurred during the rest of the Plan Year will be payable at the rate of 100% of the Allowed Amount or the contracted fee as determined by the Provider's contract with the Network.

For Members enrolled in the Employee plus Adult, Employee plus Child, and Family Coverage Levels:

When an individual Member enrolled in a family Plan has paid \$7,350 of the \$14,700 Out-of-Pocket Maximum expense in a Plan Year for Tier 1 and Tier 2 Participating Provider claims, benefits for Covered Expenses incurred during the rest of the Plan Year will be payable at the rate of 100% of the Allowed Amount or the contracted fee as determined by the Provider's contract with the Network for that individual Member.

When two or more Members enrolled in a family Plan have paid a combined amount of the Out-of-Pocket Maximum Expenses for the remaining \$7,350 of the \$14,700 in a Plan Year for Tier 1 and Tier 2 Participating Provider claims, benefits for Covered Expenses for the Employee and all Eligible Dependents incurred during the rest of the Plan Year will be payable at the rate of 100% of the Allowed Amount or the contracted fee as determined by the Provider's contract with the Network.

7.4 Out-of-Pocket Maximum for Non-Participating Provider Expenses

Out-of-Pocket Expenses are a portion of the covered expense for which the participant is financially responsible. A copayment or coinsurance is not considered an out-of-pocket expense until the deductible is met. The following do not apply to the accumulation of the out-of-pocket maximum:

1. Prescription costs;
2. Charges in excess of the Recognized Amount;
3. All charges associated with a non-covered service.

For Members enrolled in the Employee Only Coverage:

When a Member enrolled in the Plan has paid the Out-of-Pocket Maximum expense of \$8,700 in a Plan Year for Tier 3 Non-Participating Provider claims, benefits for Covered Expenses

normally payable at the Out-of-Network coinsurance and incurred during the rest of the Plan Year will be payable at the rate of 100% of the Allowed Amount.

For Members enrolled in the Employee plus Adult, Employee plus Child, and Family Only Coverage Levels:

When an individual Member enrolled in a family Plan has paid \$8,700 of the \$17,400 Out-of-Pocket Maximum expense in a Plan Year for Tier 3 Non-Participating Provider claims, benefits for Covered Expenses incurred during the rest of the Plan Year will be payable at the rate of 100% of the Allowed Amount for that individual Member.

When two or more Members enrolled in a family Plan have paid a combined amount of the Out-of-Pocket Maximum expenses for the remaining \$8,700 of the \$14,700 in a Plan Year for Tier 3 Non-Participating Provider claims, benefits for Covered Expenses for the Employee and all Eligible Dependents incurred during the rest of the Plan Year will be payable at the rate of 100% of the Allowed Amount.

7.5 Notification, Proof of a Claim, and Payment

Inpatient hospitalization for any Emergency Services or Urgent Care requires notification to and Pre-Certification/Prior Authorization by the Third Party Claim Administrator if admitted.

Notification of inpatient hospitalization is required as soon as reasonably possible, but no later than the second business day after admission. This requirement shall not cause denial of an otherwise valid claim if you could not reasonably comply, provided that notification is given to the Third Party Claim Administrator as soon as reasonably possible.

Coverage for Emergency Services received through Non-Participating Providers at an Inpatient or Emergency Room Facilities shall be limited to covered services to which you would have been entitled under the Plan. The federal "No Surprises Act" protects you from surprise balance bills from providers in certain situations.

- **Emergencies:** When you receive emergency care from Out-of-Network providers, your financial responsibility will be determined in the same way as if you received the care from In-Network providers. Also, Out-of-Network providers can't balance bill you for the difference between the allowed amount and the billed charge.
- **Non-emergency services at In-Network facilities:** The same emergencies rule above applies if you receive services from Out-of-Network providers while you are at an In-Network facility, such as a hospital or outpatient surgery center, unless the provider gives you a legally-required notice and you give consent in accordance with the law. If you give this consent, you will pay the Out-of-Network cost share and any balance bill, and the No Surprises Act dispute process won't apply.
- **For Out-of-Network Emergency ground and air ambulance providers,** the Recognized Amount is based upon the lesser of the qualifying payment amounts as determined under applicable law or the ambulance provider's billed charges.

- Disputes: If Out-of-Network providers want to dispute the Allowed Amount paid to them, they are required to resolve the dispute with the Third Party Claim Administrator. As long as you pay your required cost-share amount, they can't collect any other amounts from you.

Claims and supporting documentation submitted for reimbursement must meet the timely filing requirements and be received within one (1) year from the date the services were rendered. Claim forms are available on the Third Party Claim Administrator website or by calling the Customer Service Center.

Foreign Claims: Request for reimbursement of foreign claims must include the following information: Employee name, Member identification number, patient name, date of service, provider name and address, detailed description of the services rendered, charges, and the currency in which the charges are being reported. Foreign travel guidelines are available on the Third Party Claim Administrator website.

7.6 Covered Expenses

The term Covered Expenses means the expenses incurred by or on behalf of a person, if they are incurred after he becomes insured for these benefits and prior to the date coverage ends. Expenses incurred for such charges are considered Covered Expenses to the extent that the services or supplies provided are recommended by a Physician and are essential for the necessary care and treatment of a non-occupational injury or a sickness and outlined below.

The Covered Expenses available to a Member under this Plan are described below. Any applicable copayments and other limits are identified in the Schedule of Benefits. Unless otherwise authorized in writing by the Plan, Covered Expenses are available to Participants only if:

1. They are Medically Necessary and not specifically excluded in this Article or any other Article; and
2. Pre-Certification/Prior Authorization is obtained from the Plan by the Member or provider, for those services that require Pre-Certification/Prior Authorization. To obtain Pre-Certification/Prior Authorization call the number on your ID card.

If a Member uses Participating Providers for facility and physician services for a given procedure, any assistant surgeon, anesthesiologist, radiologist, and pathologist charges in connection with that procedure will be payable at the In-Network level of benefits even if rendered by Non-Participating Providers. During an inpatient admission, if a consultation is required by a specialist on call at the facility causing the Member to have no control over the provider chosen, charges in connection with the consultation will be payable at the In-Network level of benefits even if rendered by Non-Participating Providers. Covered services provided by an out-of-Network Physician in certain Network facilities will apply the same cost sharing (Copayment, Coinsurance and applicable deductible) as if those services were provided by a Network provider; however the Third Party Claim Administrator will pay for Allowed Amounts.

Allowed Amounts are determined in accordance with the Third Party Claim Administrator reimbursement policy guidelines, or as required by law.

7.7 Copayment

The Copayment (Copay) amount noted in the Schedule of Benefits is the amount you are responsible for paying each time you receive certain covered health services. The Copay is a flat dollar amount and is paid at the time of service or when billed by the provider. Copays count toward the Out-of-Pocket Maximum. If the total eligible expenses are less than the Copay, you are responsible for paying the eligible expenses.

7.8 Autism Spectrum Disorder Services

Behavioral therapy is only covered for the treatment of Autism Spectrum Disorder as defined in Article 16.

The following services are excluded: Sensory Integration, LOVAAS Therapy and Music Therapy.

If multiple services are provided on the same day by different Providers, a separate copayment will apply to each Provider.

7.9 Physician Services

Physician Services are diagnostic and treatment services provided by Participating Physicians and Other Participating Health Professionals, including office visits, virtual visits, periodic health assessments, well-child care and routine immunizations provided in accordance with accepted medical practices, hospital care, consultation, and surgical procedures.

7.10 Inpatient Hospital Services

Inpatient hospital services are services provided for evaluation or treatment of conditions that cannot be adequately treated on an ambulatory basis or in another Participating Health Care Facility. Inpatient hospital services include semi-private room and board; care and services in an intensive care unit; drugs, medications, biologicals, fluids, blood and blood products, and chemotherapy; special diets; dressings and casts; general nursing care; use of operating room and related facilities; laboratory and radiology services and other diagnostic and therapeutic services; anesthesia and associated services; inhalation therapy; radiation therapy; admit kit; and other services which are customarily provided in acute care hospitals. Inpatient hospital services also include Birthing Centers.

Private rooms are only provided if deemed Medically Necessary by the Third Party Claim Administrator. The Plan will pay the difference in cost between a semi-private room and a private room only if a private room is necessary according to generally accepted medical practice or when a Semi-private Room is not available.

7.11 Outpatient Facility Services

Outpatient facility services are services provided on an outpatient basis, including: diagnostic and/or treatment services; administered drugs, medications, fluids, biologicals, blood and blood

products; inhalation therapy; and procedures which can be appropriately provided on an outpatient basis, including certain surgical procedures, anesthesia, and recovery room services.

7.12 Emergency Services and Urgent Care

In the event of an emergency, get help immediately. Go to the nearest emergency room, the nearest hospital or call or ask someone to call 911 or your local emergency service, police or fire department for help. You do not need a referral from your Physician for emergency services, but you should call your Physician as soon as possible for further assistance and advice on follow-up care. If you require specialty care or a hospital admission, contact the Third Party Claim Administrator to obtain the necessary authorizations for care or hospitalization.

Tier 1 In-Network Deductible and Copayment will apply to all Emergency Services. If you receive Emergency Services outside the service area, you must notify the Third Party Claim Administrator as soon as reasonably possible. We may arrange to have you transferred to a Participating Provider for continuing or follow-up care if it is determined to be medically safe to do so in order to continue benefits at the In-Network benefit level.

“Emergency Services” are defined as a medical or behavioral condition of sudden onset that manifests itself by acute symptoms of sufficient severity (including severe pain) such that a person who possesses an average knowledge of health and medicine could reasonably expect the absence of immediate medical attention to result in placing the health of the insured person in serious jeopardy, serious impairment to bodily functions, serious disfigurement of the insured person, serious impairment of any bodily organ or part of the insured person, or in the case of a behavioral condition, placing the health of the insured person or other persons in serious jeopardy.

Examples of emergency situations include uncontrolled bleeding, seizures or loss of consciousness, shortness of breath, chest pains or severe squeezing sensations in the chest, suspected overdose of medication or poisoning, sudden paralysis or slurred speech, burns, cuts, and broken bones. The symptoms that led you to believe you needed emergency care, as coded by the provider and recorded by the hospital on the UB92 claim form or its successor, or the final diagnosis, whichever reasonably indicated an emergency medical condition, will be the basis for the determination of coverage, provided such symptoms reasonably indicate an emergency. You are covered for at least a screening examination to determine whether an emergency exists. Care up and through stabilization for an emergency situation is covered without prior authorization.

For Urgent Care services, you should take all reasonable steps to contact your Physician for direction and you should receive care from a Participating Provider, unless otherwise authorized by the Plan. If you are traveling outside of the network’s service area in which you are enrolled, you should, whenever possible, contact the Plan or your Physician for direction and authorization prior to receiving services.

“Urgent Care” is defined as medical, surgical, hospital and related health care services and testing which are not Emergency Services, but which are determined by the Plan in accordance with generally accepted medical standards to have been necessary to treat a condition requiring prompt medical attention. This does not include care that could have been foreseen before leaving the immediate area where you ordinarily receive and/or are scheduled to receive services. Such care includes but is not limited to: dialysis, scheduled medical treatments or therapy, or care received after a Physician’s recommendation that you should not travel due to any medical condition.

7.13 Ambulance Service

Ambulance services to/from an appropriate provider or facility are covered for emergencies. Covered Expenses for emergency ambulance services include charges for licensed ambulance service to or from the nearest hospital where the needed medical care and treatment can be provided.

Pre-Certification/Prior Authorization for non-emergency ambulance services is required to be obtained from the Third Party Claim Administrator by a provider that is treating the Member. Coverage includes non-Emergency ambulance transportation by a licensed ambulance service (either ground or air ambulance, as determined appropriate by the Third Party Claim Administrator) between facilities only when the transport meets one of the following:

- From an Out-of-Network Hospital to the closest Network Hospital when Covered Health Care Services are required
- To the closest Network Hospital or facility that provides the required Covered Health Care Services that were not available at the original Hospital or facility
- From a Short-Term Acute Care Facility to the closest Network Long-Term Acute Care Facility (LTAC), Network Inpatient Rehabilitation Facility, or other Network Sub-Acute Facility where the required Covered Health Care Services can be delivered
- When the member’s condition requires treatment at another facility and another mode of transportation would endanger the member’s medical condition

Non-ambulance transportation is not covered even if rendered in an Emergency situation.

The following services not eligible for coverage include but are not limited to:

- Commercial or private airline or helicopter
- A police car ride to a hospital
- Medi-van or wheelchair van transportation
- Taxi ride, bus ride, rideshare services such as Lyft and Uber, etc.
- Ambulance transportation when other mode of transportation is appropriate
- Ambulance transportation to a home, residential, domiciliary or custodial facility
- Ambulance transportation for member convenience or other miscellaneous reasons for member and/or family, including but not limited to:
 - Member wants to be at a certain hospital or facility for personal/preference reasons

- Member is in foreign country, or out of state, and wants to come home for a surgical procedure or treatment (this includes those recently discharged from inpatient care)
- Member is going for a routine service and is medically able to use another mode of transportation
- Member is deceased and family wants transportation to the coroner's office or mortuary
- Ambulance transportation deemed not appropriate. Examples include but are not limited to:
 - Hospital to home
 - Home to physician's office
 - Home (e.g., residence, nursing home, domiciliary or custodial facility) to a hospital for a scheduled service
- If the member is at a Skilled Nursing Facility/Inpatient Rehabilitation Facility and has met the annual day/visit limit on Skilled Nursing Facility/Inpatient Rehabilitation Facility Services, ambulance transports (during the non-covered days) are not eligible.

7.14 Bariatric Surgery

PRESCRIPTION DRUG BENEFITS

Additional coverage of some prescription drugs not normally covered in a Medicare Part D prescription drug plan may be included in this Plan (enhanced drug coverage). To find out which drugs the Plan covers and any limitations, refer to your formulary. The amount you pay when you fill a prescription for these drugs does not count towards your total drug costs qualifying you for the Catastrophic Coverage Stage. In addition, if you are receiving Extra Help to pay for your prescriptions, you will not get any Extra Help to pay for these drugs. See your Medicare VibrantRx (Employer PDP) Evidence of Coverage booklet and formulary for more details. These documents are available at www.myvibrantrx.com/stateofaz.

8.1 Prescription Drug Benefits

If a Member incurs expenses for charges made by a Pharmacy for Covered Prescription Drugs, the Plan will pay a portion of the expense remaining after you have paid the required copayment shown in the Schedule of Benefits. The Prescription Drug Benefits are provided through the Plan Sponsor and are administered by the Pharmacy Benefit Management vendor, an organization which has been contracted by the Plan Sponsor to perform these services.

Prescription Medication and Diabetic Supplies	Copayment
Diabetic Supplies include insulin, lancets, insulin syringes/needles, pre-filled cartridges, urine test strips, blood glucose testing machines, blood sugar test strips, and alcohol swabs.	Available through Mail Order and Retail Pharmacy at the copayment outlined below.
Smoking cessation aids both prescribed and over-the-counter will be covered. Members must have a prescription and present to an In-Network pharmacy for the aid to be covered. Only FDA approved aids will be covered.	No charge
Prescribed preventive medication including certain aspirin, contraceptives, vitamins and other agents as recommended by the FDA, USPSTF, CDC, and the HRSA.	No charge
Retail Pharmacy (up to a 30-day supply) Generic Preferred Brand Non-Preferred Brand	\$15.00 \$40.00 \$60.00

Retail (up to a 90-day supply)

Preferred Brand	\$100.00
Non-Preferred Brand	\$150.00

The Member must pay a portion of Covered Prescription Drugs to receive Prescription Drug Benefits. A copayment is that portion of Covered Prescription Drugs which you are required to pay under this benefit. The Prescription Drug Copayment is considered an Eligible Expense under the medical portion of this Plan and accumulates toward the medical Plan Out-of-Pocket Maximum.

The Preferred Drug List (PDL), also known as a formulary, is a list of medications that will allow you to maximize the value of your prescription benefit. These medications, chosen by a committee of doctors and pharmacists, are lower-cost generics and brand names that are available at a lower cost than their more expensive brand-name counterparts. The PDL is updated quarterly, and as needed throughout the year to add significant new medications as they become available. Medications that no longer offer the best therapeutic value for the Plan are deleted from the PDL twice a year, and a letter is sent to any Member affected by the change. To see what medications are on the PDL, log on to the PBM website or contact the Customer Service Center listed on your ID card. You may have a copy sent to you. Sharing this information with your doctor helps ensure that you are getting the medications you need, and saving money for both you and your Plan.

Prescriptions for certain medications may require clinical approval through a Prior Authorization process before they can be filled, even with a valid prescription. These prescriptions may be limited to quantity, frequency, dosage or may have age restrictions. Certain medications may require a step therapy program that requires you to use a more cost-effective drug. You, your local pharmacy, or your physician may initiate the Prior Authorization process by contacting the PBM.

ARTICLE 10

COORDINATION OF BENEFITS AND OTHER SOURCES OF PAYMENT

10.1 Coordination of Benefits and Other Sources of Payment

Coordination of Benefits applies to medical services received under the terms of the Plan. Prescription medications are not subject to coordination of benefits. If you choose to obtain medications through coverage other than this Plan's PBM, amounts applied to deductible, co-pays, or coinsurance will not be reimbursed through this Plan.

Coordination of Benefits does not override Plan provisions, exclusions or Pre-Certification/Prior Authorization requirements or exclusions as noted in this Plan Description. All Plan terms and conditions apply whether this Plan is primary or secondary.

10.2 Workers' Compensation

Benefits under this Plan will not duplicate any benefit which the Member is entitled to receive under workers' compensation law. In the event the Plan renders or pays for health services that are covered by a workers' compensation plan or included in a workers' compensation settlement, the Plan shall have the right to receive reimbursement either:

1. Directly from the entity that provides Member's workers' compensation coverage; or
2. Directly from the Member to the extent, if any, that the Member has received payment from such entity, where the Plan pays for services which are within the scope of the "Covered Services and Supplies" section of the Plan.

The Plan shall have a right of reimbursement to the extent that the Plan has made payments for the care and treatment so rendered. In addition, it is the Member's obligation to fully cooperate with any attempts by the Plan to recover such expenses.

10.3 Coordination of Benefits

This section applies if you are covered under another plan besides this health Plan or are a new Retiree. Additionally, this section determines how the benefits under the plans will be coordinated. If you are covered by more than one health benefit plan, you should file all claims with each plan.

When coordinating benefits with Medicare for Retiree Members, the Benefit Options Plan will be the Secondary Plan and will determine benefits after Medicare, where permitted by the Social Security Act of 1965, as amended. All Retiree Plan Members who are eligible for Medicare Part B, should enroll in Medicare Part B so the Member does not assume the Part B claims costs. If a Plan Member who is eligible for Medicare Part B does not enroll in Medicare Part B, the Benefit Options Plan will only pay secondary benefits.

When enrolling in the Benefit Options Plan as a New Retiree and if eligible for Medicare Part B at the time of retirement, a grace period will be granted until the first of the month following the retirement date. If a Plan Member who is eligible for Medicare Part B does not enroll in Medicare Part B, the Plan will only pay secondary benefits after the grace period has expired.

If you are eligible to enroll in Medicare as an active Employee, Spouse, Dependent or Retiree because of End-Stage Renal Disease, the Plan will pay for the first 30 months to 33 months depending on the coordination period, whether or not you are enrolled in Medicare and have a Medicare card. At the end of the 30 months to 33 months depending on the coordination period, Medicare becomes the primary payer. If a Plan Member who is eligible for Medicare Part B does not enroll in Medicare Part B, the Plan will only pay secondary benefits after 30 months to 33 months depending on the coordination period of primary coverage. The length of the coordination period is based on the treatment plan; Members that are scheduled for transplant or have at-home dialysis have a 30-month coordination period, while Members who have regular dialysis (at a facility) have a 33-month coordination period.

The prescription drug coverage offered by the Benefit Options Plan is considered Creditable Coverage. If you elect to enroll in a separate Medicare Part D Plan, you will not be permitted to continue in this Plan.

10.4 Definitions

For the purposes of this section, the following terms have the meanings set forth below them:

10.4.1 Plan

Any of the following that provides benefits or services for medical care or treatment:

1. Group insurance and/or group-type coverage, whether insured or self-insured, which neither can be purchased by the general public nor is individually underwritten, including closed panel coverage;
2. Coverage under Medicare and other governmental benefits as permitted by law, accepting Medicaid and Medicare supplement policies; or
3. Medical benefits coverage of group, group type, and individual automobile contracts.

Each type of coverage you have in these three (3) categories shall be treated as a separate Plan. Also, if a Plan has two parts and only one part has coordination of benefit rules, each of the parts shall be treated as a separate Plan.

10.4.2 Closed Panel Plan

A Plan that provides health benefits primarily in the form of services through a panel of employed or contracted providers and that limits or excludes benefits provided by providers outside of the panel, except in the case of emergency or if referred by a provider within the panel.

10.4.3 Primary Plan

The Plan that determines and provides or pays its benefits without taking into consideration the existence of any other Plan.

10.4.4 Secondary Plan

A Plan that determines and may reduce its benefits after taking into consideration copayments, coinsurance, deductibles, and the benefits provided or paid by the Primary Plan. A Secondary Plan may also recover the Reasonable and Customary charges of any services it provided to you from the Primary Plan.

10.4.5 Allowable Expense

A necessary, customary, and reasonable health care service or expense, including deductibles and coinsurance or copayments, that is covered in full or in part by any Plan covering you; but not including prescription medications obtained at a pharmacy, dental, vision or hearing care coverage. When a Plan provides benefits in the form of services, the amount of Allowable Expense for each service is determined by the Third Party Claim Administrator Provider contract and any other Primary Plan, including Medicare, and is a covered benefit.

A plan which takes Medicare or similar government benefits into consideration when determining the application of its coordination of benefits provision does not expand the definitions of an Allowable Expense.

10.4.6 Claim Determination Period

The claim determination period corresponds to the Plan Year, but it does not include any part of a year during which you are not covered under this Plan or any date before this section or any similar provision takes effect.

10.4.7 Reasonable and Customary

An amount which a duly licensed provider of health care services usually charges patients and which is within the range of fees usually charged for the same service by other health care providers located within the immediate geographic area where the health care service is rendered under similar or comparable circumstances.

10.5 Order of Benefit Determination Rules

A plan that does not have a coordination of benefits rule consistent with this section shall always be the primary plan. If the plan does have a coordination of benefits rule consistent with this section, the first of the following rules that applies to the situation will be used:

1. The plan that covers you (the Employee, subscriber or Retiree) is primary and the plan that covers the person as a Dependent is secondary. However, if the person is a Medicare beneficiary, and, as a result of the provisions of Title XVIII of the Social Security Act and implementing regulations, Medicare is:
 - a. Secondary to the plan covering the person as a Dependent; and

- b. Primary to the plan covering the person as other than a Dependent (e.g. Employee or Retiree).
2. If you are a Dependent Child whose parents are not divorced or legally separated under a decree of dissolution of marriage or of separate maintenance, the primary plan shall be the plan which covers the parent whose birthday falls first in the calendar year as a Subscriber or Employee;
3. If you are the Dependent of divorced or separated parents, benefits for the Dependent shall be determined in the following order:
 - a. If a court decree states that one parent is responsible for the Child's health care expenses or health coverage and the Plan for that parent has actual knowledge of the terms of the order, but only from the time of actual knowledge;
 - b. The plan of the parent with custody of the Child;
 - c. The plan of the Spouse of the parent with custody of the Child;
 - d. The plan of the parent not having custody of the Child;
 - e. The plan of the Spouse of the parent not having custody of the Child.
 - f. If parents share joint custody and each parent is responsible for 50% of covered medical expenses, the plan will coordinate 50% payment of benefits with the other parent's plan.
4. The plan that covers you as an active Employee (or as that Employee's Dependent) shall be the primary plan and the plan that covers you as a laid-off or Retired Employee (or as that Employee's Dependent) shall be the secondary plan. If the other plan does not have a similar provision and, as a result, the plans cannot agree on the order of benefit determination, this paragraph shall not apply.
5. The plan that covers you under a right of continuation which is provided by federal or state law shall be the secondary plan and the plan that covers you as an active Employee or Retiree (or as that Employee's Dependent) shall be the primary plan. If the other plan does not have a similar provision and, as a result, the plans cannot agree on the order of benefit determination, this paragraph shall not apply.
6. If one of the plans that cover you is issued out of the state whose laws govern this Plan and determines the order of benefits based upon the gender of a parent, and as a result, the plans do not agree on the order of benefit determination, the plan with the gender rules shall determine the order of benefits.

If none of the above rules determines the order of benefits, the plan that has covered you for the longer period of time shall be primary.

When coordinating benefits with Medicare, this Plan will be the Secondary Plan and determine benefits after Medicare, where permitted by the Social Security Act of 1965, as amended, except for active State of Arizona Employees otherwise eligible under this Plan, however, when more than one plan is secondary to Medicare, the benefit determination rules identified above, will be used to determine how benefits will be coordinated.

10.6 When this Plan is Secondary

If Benefit Options is the Secondary Plan, Benefit Options may reduce benefits so that the total benefits paid by all plans during a Claim Determination Period are not more than one hundred (100%) percent of the lesser of the Primary Plan's or this Plan's Allowable Expense. The Member will remain responsible for all copayments noted in Article 7, Schedule of Benefits. The Member copayment is applied after the Primary Plan's processing and payment of the claim. Additionally, the Member copayment is applied to the total claim and will be allocated across claim lines as necessary, not to an individual service.

When Benefit Options is the Secondary Plan, the Plan follows the maintenance of benefits/non-duplication method of claim payment. Under this method, the Benefit Options Plan, as secondary payer, does not reimburse any more than it would have paid if it were the primary or only payer. The secondary payment is the lesser of one hundred (100%) percent of the total of all Allowable Expenses (Medicare or other Primary Plan) or the Third Party Claim Administrator's contracted provider rates less: the amount the Primary Plan paid, the Plan's Member deductible, coinsurance, or copayments as noted in Article 7, Schedule of Benefits. The Plan will cover any Medicare copayments or Medicare deductibles. If the remaining responsibility after the Primary Plan's payment is less than the Member's Benefit Options copay for the service, the Member's copay will be reduced accordingly.

All Plan Member responsibility amounts (deductibles, copayments and coinsurance) noticed in Article 7, Schedule of Benefits remain the Member's responsibility and are considered part of the Coordination of Benefits payment. The Member responsibility amounts are applied to the Allowed Expenses after the primary insurance reimbursement and before the Plan pays; this may reduce the Plan's responsibility to a zero-dollar amount. Additionally, if the remaining responsibility after the Primary Plan's payment is less than a Member's copayment for the service, the Member's copayment will be reduced accordingly.

If the Provider does not accept assignment of Medicare benefits, the Provider is considered to be a non-participating Medicare provider. When the provider does not accept assignment, the Medicare payment will be made directly to the Member. The Provider may bill the Member no more than the Medicare limiting charge for covered services, typically one hundred fifteen percent (115%) of the Medicare allowed amount. Medicare payments made directly to the Member, when combined with Plan benefits, will not exceed one hundred percent (100%) of the Plan Allowable Expense.

10.7 Medicare Opt-Out

If a Member chooses to receive Medicare eligible services from a Provider who has opted-out of Medicare, the Member enters into a payment contract directly with the Provider. The claim must not be submitted to Medicare for payment, but may be submitted to the Plan.

When services provided to the Member are covered by Medicare and are eligible for payment by the Plan, and the Member pays less than the lesser of the Medicare or Plan Allowable Expense, the claim would be treated by the Plan as if Medicare had paid as primary. The Plan

would pay the remaining patient responsibility after any applicable Plan deductible, coinsurance and copay (as shown in Article 7, Schedule of Benefits) up to the lesser of the Medicare or Plan Allowable Expense. If the member pays the provider more than the Plan Allowable Expense, the Plan will deny any further payment.

If the services provided to the Member are not covered by Medicare but are eligible for payment by the Plan, and the Member pays less than the Plan Allowable Expense, the Plan will pay up to 20% of the Plan Allowable Expense less any applicable Plan deductible, coinsurance and copay (as shown in Article 7, Schedule of Benefits). If the member pays the provider more than the Plan Allowable Expense, the Plan will deny any further payment.

If the services provided to the Member are not covered by Medicare or the Plan, the claim will be denied and the member is responsible for the full payment to the provider per the agreed-upon contracted amount.

10.8 Recovery of Excess Benefits Paid

If the Plan provides payment for services and supplies that should have been paid by a Primary Plan or if payment is made for services in excess of those for which the Plan is obligated to provide under this Plan, the Plan shall have the right to recover the actual payment made. When an overpayment is identified, the refund request will be initiated to the original payee of the issued check. If the payee is the Provider, the Member will receive a copy of the letter. In the event the overpayment is not refunded to the Plan, the Third Party Claim Administrator may apply future claims to the balance of the overpaid amount.

The Plan shall have the sole discretion to seek such recovery from any person to, or for whom, or with respect to whom, such services were provided or such payments were made; any insurance company; health care Plan or other organization. If Benefit Options requests, the Member shall execute and deliver to us such instruments and documents as we determine are necessary to secure its rights.

10.9 Right to Receive and Release Information

The Plan, without consent of or notice to you, may obtain information from and release information to any Plan with respect to you in order to coordinate your benefits pursuant to this section. You shall provide us with any information we request in order to coordinate your benefits pursuant to this section.

10.10 Injuries Covered under Med Pay Insurance

If you are injured as a result of a motor vehicle accident, and the medical expenses are covered in full or part by a medical payment provision under an automobile insurance policy (Med Pay Insurance), the Med Pay Insurance shall pay first, and the Plan shall pay only in the event the amount of Med Pay Insurance is insufficient to pay for those medical expenses.

The Plan reserves the right to require proof that Med Pay Insurance has paid the full amount required prior to making any payments.

Payment for such services and benefits shall be your responsibility. If the Plan paid in excess of their obligation, you may be asked to assist the Plan in obtaining reimbursement from Med Pay Insurance for expenses incurred in treating your injuries.

10.11 Subrogation and Right of Reimbursement Recovery

This provision applies whenever any payments are made pursuant to this Plan, to or for the benefit of any person covered by the Plan (for purposes of this provision only, such person shall be referred to herein as “Covered Person” and includes, but is not limited to the Covered Person’s Dependents, Spouse, Children or other individuals in any way connected to the Covered Person to whom or for whose benefit any payments have been made under this Plan, the Member himself or herself, and all their heirs, legatees, administrators, executors, beneficiaries, successors, assigns, personal representatives, next friends, and any other representatives of such Covered Person). Such Covered Person has or may have any claim or right to recover any damages from any person or entity, including but not limited to, any tortfeasor, anyone vicariously liable for such tortfeasor, any tortfeasor’s insurance company, any uninsured motorist insurance carrier, any underinsured motorist insurance carrier, and any others who are or may be liable for damages to the Covered Person (for purpose of this provision only, such person or entity shall hereinafter be collectively referred to as the “Third Party”) as a result of any negligent or other wrongful act of anyone. In the event of any such payments under the Plan, the Plan shall, to the full extent of such payments, and in an amount equal to what the Plan paid, be subrogated to all rights of recovery of the Covered Person against such Third-Party. The Plan, either in conjunction with or independently of the Covered Person, shall be entitled to recover all such payments from the Third-Party. (This is the Plan’s right of subrogation).

In addition to and separate from the above-described right of subrogation, in the event of any payments under the Plan to or for the benefit of any Covered Person, the Covered Person agrees to reimburse the Plan to the full extent of such payments, and in an amount equal to what the Plan paid, from any and all amounts recovered by the Covered Person from any Third Party by suit, settlement, judgment or otherwise, whether such recovery by the Covered Person is in part or full recovery of the damages incurred by the Covered Person. (This is the Plan’s right of reimbursement.)

The above-described right of subrogation and right of reimbursement are not subject to offset or other reduction by reason of any legal fees or other expenses incurred by the Covered Person in pursuing any claim or right. The Plan is entitled to recover in full all such payments in subrogation and/or pursuant to the right of reimbursement first and before any payment whatsoever by the Third Party to or for the benefit of the Covered Person. The right of subrogation and/or right of reimbursement of the Plan supersedes any rights of the Covered Person to recover from any Third-Party, including situations where the Covered Person has not been fully compensated for all the Covered Person’s damages. The priority of the Plan to be paid first exists as to all damages received or to be received by the Covered Person, and to any full or partial recovery by the Covered Person. The Covered Person agrees that the Covered

Person's right to be made whole is superseded by the Plan's right of subrogation and/or right of reimbursement.

The Covered Person agrees to fully cooperate with the Plan in any effort by the Plan to recover pursuant to its rights of subrogation and/or reimbursement, and the Covered Person further agrees to do nothing to prejudice such rights. The Covered Person agrees to provide information to the Plan necessary for the Plan to pursue such rights, and further agrees, if requested by the Plan, to acknowledge in writing the rights of the Plan to recover following any injury or illness giving rise to any payments under the Plan. If requested to do so by the Plan, the Covered Person agrees to assign in writing to the Plan the Covered Person's right to recover against any Third-Party without the Plan having been paid in full, then the Covered Person agrees to hold such payment in trust for the Plan and promptly notify the Plan in writing that the Covered Person is holding such funds and will release such funds to the Plan upon request by the Plan. The Covered Person further agrees to promptly notify the Plan in writing of the commencement of any litigation or arbitration seeking recovery from any Third-Party, and further agrees not to settle any claim against any Third-Party without first notifying the Plan in writing at least fourteen days before such settlement so the Plan may take actions it deems appropriate to protect its right of subrogation and/or right of reimbursement. In the event the Covered Person commences any litigation against any Third Party, the Covered Person agrees to name the Plan as a party to such litigation so as to allow the Plan to pursue its right of subrogation and/or right of reimbursement.

10.12 Statutory Liens

Arizona law prohibits Participating Providers from charging you more than the applicable copayment or other amount you are obligated to pay under this Plan for covered services. However, Arizona law also entitles certain Providers to assert a lien for their customary charges for the care and treatment of an injured person upon any and all claims of liability or indemnity, except health insurance. This means that if you are injured and have a claim against a non-health liability insurer (such as automobile or homeowner insurance) or any other payor source for injuries sustained, a Provider may be entitled to a lien against available proceeds from any such insurer or payor in an amount equal to the difference between: (1) the applicable Member copayment plus what the Participating Provider has received from Plan as payment for covered services, and (2) the Participating Provider's full billed charges.

10.13 Fraud

Any person who knowingly presents a false or fraudulent claim for payment of a loss or benefit will lose all benefit coverage under any Plan offered by ADOA. You will not be eligible to re-enroll at a future date. Amounts paid on these claims may be deducted from your pay until all funds have been reimbursed to ADOA.

ARTICLE 11

CLAIM FILING PROVISIONS AND APPEAL PROCESS

In cases where a claim for benefits payment is denied in whole or in part (including determinations of eligibility, coverage terminations, rescissions, or any Adverse Benefit Determination) the Member may appeal the denial or decision.

Medicare Part D participants have dual coverage. For drugs covered under Medicare Part D, the following does not apply, please refer to www.myvibranttrx.com/stateofaz. For drugs not covered under Medicare Part D the following applies.

11.1 Discretionary Authority

The Plan Sponsor delegates to the Third Party Claim Administrator the discretionary authority to apply Plan terms and to make factual determinations in connection with its review of claims under the Plan. Such discretionary authority is intended to include, but not be limited to, the computation of any and all benefit payments. The Plan Sponsor also delegates to the Third Party Claim Administrator the discretionary authority to perform a full and fair review of each claim denial which has been appealed by the claimant or his duly authorized representative.

11.2 Claims Filing Procedure

The following claim definitions have special meaning when used in this Plan in accordance with Claim Procedures and Appeal Procedures.

“Claim” is any request for a Plan benefit or benefits made by a Member or by an authorized representative of the Member in accordance with the Plan’s procedures for filing benefit claims.

“Urgent Care Claim” is a claim for medical care to which applying the time periods for making pre-service claims decisions could seriously jeopardize the claimant’s life, health or ability to regain maximum function or would subject the claimant to severe pain that cannot be adequately managed without the care that is the subject of the claim. If the treating Physician determines the claim is “urgent,” the Plan must treat the claim as urgent.

“Pre-Service Claim” is a request for approval of a benefit in which the terms of the Plan condition the receipt of the benefit, in whole or in part, on approval of the benefit in advance of obtaining medical care. Examples of a Pre-Service Claim include but are not limited to a Pre-Certification/Prior Authorization of general items or health services or a request for pre-determination to determine coverage for a specific procedure.

“Post-Service Claim” is a claim that under this Plan is not a Pre-Service Claim (i.e., a claim that involves consideration of payment or reimbursement of costs for medical care that has already been provided).

Requests for determinations of eligibility or general inquiries to the availability of particular Plan benefits or the circumstances under which benefits might be paid under the terms of the Plan will not be treated as a claim for benefits for the purposes of the Claim Procedures.

“Adverse Benefit Determination” means any of the following: a denial, reduction, or termination of, or a failure to provide or make payment (in whole or in part) for, a benefit, including any such denial, reduction, termination, or failure to provide or make payment that is based on a determination of a participant's or beneficiary's eligibility to participate in a plan, and including, with respect to group health plans, a denial, reduction, or termination of, or a failure to provide or make payment (in whole or in part) for, a benefit resulting from the application of any utilization review, as well as a failure to cover an item or service for which benefits are otherwise provided because it is determined to be experimental or investigational or not Medically Necessary or appropriate.

11.3 Notice of Claim – Post-Service Claims

In order to promptly process Post-Service Claims and to avoid errors in processing that could be caused by delays in filing, a written proof of loss should be furnished to the Third Party Claim Administrator as soon as reasonably possible. In no event, except in the absence of legal incapacity of the claimant, may proof be furnished later than one (1) year from the date upon which an expense was incurred. Except as indicated in the preceding sentence, Post-Service Claims will be barred if proof of loss (filing initial claim) is not furnished within one (1) year from the date incurred.

It is the responsibility of the Member to make certain each Post-Service Claim submitted by him or on his behalf includes all information necessary to process the claim, and that the Post-Service Claim is sent to the proper address for processing (the address on the Member's ID card). If a Post-Service Claim lacks sufficient information to be processed, or is sent to an incorrect address, the Post-Service Claim will be denied.

11.4 Initial Claim Determination

Provided a Member files a claim for benefits in accordance with the terms of the Plan specific to each type of claim, the Plan will make an initial claim determination:

1. Within 3 business days after receipt of an Urgent Care Claim by the Plan. This notice if adverse, must be provided to you in writing within 3 days of any oral communication;
2. Within 15 calendar days after receipt of a Pre-Service Claim by the Plan. This notice if adverse, must be provided in writing;
3. Within 30 calendar days after receipt of a Post-Service Claim by the Plan.

The time periods above are considered to commence upon the Third Party Claim Administrator receipt of a claim for benefits filed in accordance with the terms of the Plan specific to each type of claim, without regard to whether all of the information necessary to decide the claim accompanies the filing.

If a claim on review is wholly or partially denied, the written notice will contain the following information:

1. The specific reason(s) for the denial and reference to the specific Plan provisions on which the denial is based. If a protocol was followed in making the determination, then the notice will state that a protocol was relied upon and that a copy of such protocol is available to the Member free of charge upon request. If the claim was denied because it does not meet the definition of a Covered Expense or is experimental in nature, or if denial is due to a similar exclusion or limit, then the notice will state that an explanation of the scientific or clinical judgment used in applying the terms of the Plan to the Member's medical circumstances can be provided free of charge to the Member upon request, including the names of any medical professionals consulted during the review process.
2. A description of additional material of information necessary to perfect the claim and an explanation of why the material or information is needed;
3. A statement that the Member is entitled to request, free of charge, reasonable access to all documents, records, and other information relevant to the Member's claim.
4. For a denial involving urgent care claim, the notice will also include a description of the expedited review process for such claims. The notice can be provided orally within the timeframe for the expedited process, as long as written notice is provided no later than 3 business days after the oral notice.
5. For medical claims, the notice will also include information sufficient to identify the claim involved, including the date of service, the health care provider, the claim amount and the denial code. Further, the denial notice will include the following information (a) a statement that diagnosis and treatment codes are available upon request, (b) a description of the standard used in denying the claim, (c) a description of the external review process, and (d) the availability of, and contact information for, any applicable office of health insurance consumer or ombudsman to assist enrollees with internal claims and appeals and external review processes.
6. A statement notifying the Member about further appeal processes available, as established by the Third Party Claim Administrator.

Any written notice, acknowledgment, request, decision or other written document that is sent by mail is deemed received by the person to whom the document is properly addressed on the fifth business day after mailing.

11.5 Concurrent Care Decisions

Any decision by the Plan to terminate or reduce benefits that have already been granted with the potential of causing disruption to ongoing care, course of treatment, number of treatments or treatments provided as a Covered Expense before the end of such treatments shall constitute a denied claim. The Plan will provide a Member with notice of the denial at a time sufficiently in advance of the reduction or termination to allow the Member to appeal and obtain a determination on review before the benefit is reduced or terminated. The written notice of denial will contain the information outlined above.

Any Urgent Care Claim requesting to extend an inpatient admission beyond the initial period approved during the Pre-Certification/Prior Authorization process, must be decided within 24 hours provided that the claim is made at least 24 hours prior to the expiration of the initially prescribed period. Notification will be provided in accordance with the Urgent Care Claim notice requirements outlined above.

Any Urgent Care Claim requesting to extend an outpatient course of treatment beyond the initially prescribed period of time, or number of treatments, must be decided within 3 business days. Notification will be provided in accordance with the Urgent Care Claim notice requirements outlined above.

11.6 Incomplete Urgent Care Claims Notification

In the case of an Urgent Care Claim, if additional information is required to make a claim determination, the Plan will provide the Member notification that will include a description of the information needed to complete the claim. This notice must be provided within 24 hours after receipt of the claim for an Inpatient admission and 3 business days for outpatient services. The Member shall be afforded at least 48 hours from receipt of the notice in which to provide the specified information. The Plan shall make its initial determination as soon as possible, but in no case later than 48 hours after the earlier of (a) the Plan's receipt of the specified information, or (b) the end of the period afforded the Member to provide the specified additional information.

11.7 Extensions of Time

The Plan may extend decision-making on both Pre-Service Claims and Post-Service Claims for one additional period of 15 days after expiration of the relevant initial period. Provided the Third Party Claim Administrator determines that an extension is necessary for reasons beyond control and the Plan notifies the Member prior to the expiration of the relevant initial period, of the circumstances requiring the extension of time and the date by which the Plan expects to render a decision. If the notice of extension is provided, a Member shall be afforded at least 45 days from receipt of the notice to respond. There is no extension permitted in the case of Urgent Care Claims.

11.8 Required Filing Procedures for Pre-Service Claims

In the event a Member or authorized representative of the Member does not follow the Plan's claim filing procedures for a Pre-Service Claim, the Plan will provide notification to the Member or authorized representative accordingly. For all Pre-Service Claims, the Plan must notify the Member or authorized representative of failure to follow filing procedures within 5 calendar days (24 hours in the case of a failure to follow filing procedures for an Urgent Care Claim). Notification by the Plan may be oral unless written notification is requested by the Member or authorized representative. The notification of failure to follow filing procedures for Pre-Service Claims will apply only when a communication is received from a Member or health care professional representing the Member that specifies the identity of the Member, a specific

medical condition or symptom, and a specific treatment, service or product for which approval is requested, and the communication is received by the Third Party Claim Administrator.

11.9 Claims Appeal Procedures

In cases where a claim for benefits payment is denied in whole or in part, the Member may appeal the denial. This appeal provision will allow the Member to:

1. Request from the Plan a review of any claim for benefits. Such request must include:
 - a. Employee name,
 - b. Covered Employee's Member ID,
 - c. Name of the patient, and
 - d. Group/Client Identification number from the Member's ID card.
2. Requests for review must be in writing, stating in clear and concise terms the reason or reasons for this disagreement with the handling of the claim.
3. Submit written comments, documents, records, and other information relating to the claim.
4. Request, free of charge, reasonable access to documents, records, and other information relevant to the Member's claim. A document, record or other information is considered relevant if it was relied on in making the benefit determination; was submitted, considered, or generated in the course of making the benefit determination, without regard to whether such document, record, or other information was relied on in making the benefit determination; demonstrates compliance with the Plan's administrative processes and consistency safeguards required in making the benefit determination; or constitutes a statement of policy or guidance with respect to the Plan concerning the denied treatment option or benefit for the claimant's diagnosis, without regard to whether such advice or statement was relied upon in making the benefit determination.

The initial request for review must be directed to the Third Party Claim Administrator within 180 days after the date you receive notification of the adverse decision or rescission. In the case of Urgent Care Claims, a request for an expedited review may be submitted orally and all necessary information, including the Plan's benefit determination upon review, may be transmitted between the Plan and Member via telephone, facsimile, or other available similarly expeditious methods. Expedited appeals may be filed orally by calling the Third Party Claim Administrator Customer Service Center.

Upon request, the Plan will provide for the identification of experts whose advice was obtained on behalf of Plan in connection with the denial, without regard to whether the advice was relied on in making the denial.

The review of the denial will be made by the Third Party Claim Administrator, or by an appropriately named fiduciary who is neither the party who made the initial claim determination nor the subordinate of such party. The review will not defer to the initial claim determination and will take into account all comments, documents, records and other

information submitted by the Member without regard to whether such information was previously submitted or relied upon in the initial determination. In deciding an appeal of any denied claim that is based in whole or in part on a medical judgment, the Plan must consult with an appropriately qualified health care professional who is neither an individual who was consulted in connection with the denied claim that is the subject of the appeal nor the subordinate of any such individual.

The Third Party Claim Administrator will ensure that all claims and internal appeals for medical benefits are handled impartially. The Third Party Claim Administrator shall ensure the independence and impartiality of the persons involved in making the decision. Accordingly, decisions regarding hiring, compensation, termination promotion, or other similar matters with respect to any individual (such as a claims adjudicator or medical expert) must not be made based upon the likelihood that the individual will support an adverse benefit determination. The Third Party Claim Administrator shall ensure that health care professionals consulted are not chosen based on the expert's reputation for outcomes in contested cases, rather than based on the professional's qualifications.

Prior to deciding an appeal, the Third Party Claim Administrator must provide the claimant with any new or additional evidence considered, relied upon, or generated by the Plan (or at the direction of the Plan) in connection with the claim.

In connection with an internal appeal of a medical claim, a claimant shall be able to review his or her file and present information as part of the review. Before making a benefit determination on review, the Third Party Claim Administrator shall provide the claimant with any new or additional evidence considered or generated by the Plan, as well as any new or additional rationale to be used in reaching the decision. The claimant shall be given this information in advance of the date on which the notice of final appeal decision is made to give such claimant a reasonable opportunity to respond.

For medical claims, if the Plan fails to strictly adhere to all the requirements of the internal claims and appeals process with respect to the claim, the claimant is deemed to have exhausted the internal claims and appeals process and may request an expedited external review before the Plan's internal appeals process has been completed. However, this shall not apply if the error was de minimis, if the error does not cause harm to the claimant, if the error was due to good cause or to matters beyond the Plan's control, if it occurs in context of good faith exchange of information, or if the error does not reflect a pattern or practice of noncompliance. In that case, the claimant may resubmit the claim for internal review and the claimant may ask the Plan to explain why the error is minor and why it meets this exception.

The Third Party Claim Administrator will provide the Member with a written response:

1. Within 72 hours after receipt of the Member's request for review in the case of Urgent Care Claims;

2. Within 15 calendar days after receipt of the Member's request for review in the case of Pre-Service Claims;
3. Within 30 calendar days after receipt of the Member's request for review in the case of Post-Service Claims.

If a claim on review is wholly or partially denied, the written notice will contain the following information:

1. The specific reason(s) for the denial and reference to the specific Plan provisions on which the denial is based. If a protocol was followed in making the determination, then the notice will state that a protocol was relied upon and that a copy of such protocol is available to the Member free of charge upon request. If the claim was denied because it does not meet the definition of a Covered Health Service or is experimental in nature, or if denial is due to a similar exclusion or limit, then the notice will state that an explanation of the scientific or clinical judgment used in applying the terms of the Plan to the Member's medical circumstances can be provided free of charge to the Member upon request, including the names of any medical professionals consulted during the review process.
2. A statement that the Member is entitled to request, free of charge, reasonable access to all documents, records, and other information relevant to the Member's claim.
3. For a denial involving urgent care, the notice will also include a description of the expedited review process for such claims. The notice can be provided orally within the timeframe for the expedited process, as long as written notice is provided no later than 3 business days after the oral notice.
4. For medical claims, the notice will also include information sufficient to identify the claim involved, including the date of service, the health care provider, the claim amount and the denial code. Further, the denial notice will include the following information (a) a statement that diagnosis and treatment codes are available upon request, (b) a description of the standard used in denying the claim, (c) a description of the external review process, and (d) the availability of, and contact information for, any applicable office of health insurance consumer or ombudsman to assist enrollees with internal claims and appeals and external review processes.
5. A statement notifying the Member about potential alternative dispute resolution methods, if any.

11.10 Levels of Standard Appeal and Responsibility of Review

Level 1 is an initial appeal filed by the Member in regard to a denial of services. The Level 1 appeal must be filed within 180 days from the date you receive notification of the adverse decision or rescission. Level 1 appeals are reviewed and responded to by the Third Party Claim Administrator. The staff person reviewing the appeal will not be the person who made the initial decision.

Level 2 is a second appeal filed by the Member in regard to a denial of services in which the denial was upheld during the review of the Level 1 appeal. The Level 2 appeal must be filed

within 60 days from the date you receive notification of the Level 1 adverse decision or rescission. Level 2 appeals are reviewed and responded to by the Third Party Claim Administrators. The staff person reviewing the appeal will not be the person who made the initial decision nor the Level 1 appeal decision.

Level 3 is the third appeal filed by the Member in regard to a denial of services in which the denial was upheld during the review of the Level 2 appeal. The Level 3 appeal must be filed within four (4) months from the date you receive notification of the Level 2 adverse decision or rescission. Level 3 appeals are reviewed by an accredited Independent Review Organization (IRO) as required under federal law at no charge to the Member.

The assigned IRO will timely notify you in writing of the request's eligibility and acceptance for External Review, and will provide an opportunity for you to submit in writing within 10 business days following the date of receipt, additional information that the IRO must consider when conducting the External Review. Within one (1) business day after making the decision, the IRO must notify you, Third Party Claim Administrator and the Plan.

The IRO will review all of the information and documents timely received. In reaching a decision, the assigned IRO will review the claim and not be bound by any decisions or conclusions reached during the Plan's internal claims and appeals process. In addition to the documents and information provided, the assigned IRO, to the extent the information or documents are available and the IRO considers them appropriate, will consider the following in reaching a decision:

1. Your medical records;
2. The attending health care professional's recommendation;
3. Reports from appropriate health care professionals and other documents submitted by the Plan or issuer, you, or your treating provider;
4. The terms of your Plan to ensure that the IRO's decision is not contrary to the terms of the Plan, unless the terms are inconsistent with applicable law;
5. Appropriate practice guidelines, which must include applicable evidence-based standards and may include any other practice guidelines developed by the Federal government, national or professional medical societies, boards, and associations;
6. Any applicable clinical review criteria developed and used by Third Party Claim Administrator, unless the criteria are inconsistent with the terms of the Plan or with applicable law; and
7. The opinion of the IRO's clinical reviewer or reviewers after considering the information described in this notice to the extent the information or documents are available and the clinical reviewer or reviewers consider appropriate.

The assigned IRO must provide written notice of the Final External Review Decision within 45 days after the IRO receives the request for the External Review. The IRO must deliver the notice of Final External Review Decision to you, Third Party Claim Administrator and the Plan.

After a Final External Review Decision, the IRO must maintain records of all claims and notices associated with the External Review process for six years. An IRO must make such records available for examination by the claimant, Plan, or state or federal oversight agency upon request, except where such disclosure would violate state or federal privacy laws.

Upon receipt of a notice of a Final External Review Decision reversing the Adverse Benefit Determination or Final Internal Adverse Benefit Determination, the Plan immediately must provide coverage or payment (including immediately authorizing or immediately paying benefits) for the claim.

Expedited Independent Review

The Plan must allow you to request an expedited Independent Review at the time you receive:

1. An Adverse Benefit Determination if the Adverse Benefit Determination involves a medical condition for which the timeframe for completion of an expedited internal appeal would seriously jeopardize your life or health or would jeopardize your ability to regain maximum function and you have filed a request for an expedited internal appeal; or
2. A Final Internal Adverse Benefit Determination, if you have a medical condition where the timeframe for completion of a standard External Review would seriously jeopardize your life or health or would jeopardize your ability to regain maximum function, or if the Final Internal Adverse Benefit Determination concerns an admission, availability of care, continued stay, or health care item or service for which you received emergency services, but have not been discharged from a facility.

Immediately upon receipt of the request for expedited Independent Review, Third Party Claim Administrator will determine whether the request meets the reviewability requirements set forth above for standard External Review. Third Party Claim Administrator must immediately send you a notice of its eligibility determination.

Referral of Expedited Review to IRO

Upon a determination that a request is eligible for External Review following preliminary review, Third Party Claim Administrator will randomly assign an IRO. The IRO shall render a decision as expeditiously as your medical condition or circumstances require, but in no event more than 72 hours after the IRO receives the request for an expedited External Review. If the notice is not in writing, within 48 hours after the date of providing that notice, the assigned IRO must provide written confirmation of the decision to you, Third Party Claim Administrator and the Plan.

12.3 Advisors to Fiduciaries

A named fiduciary or his delegate may retain the services of actuaries, attorneys, accountants, brokers, employee benefit consultants, and other specialists to render advice concerning any responsibility such fiduciary has under this Plan.

12.4 Multiple Fiduciary Functions

Any named fiduciary may serve in more than one fiduciary capacity with respect to this Plan.

12.5 Notice of Appointments or Delegations

A named fiduciary shall not recognize or take notice of the appointment of another named fiduciary, or the delegation of responsibilities of a named fiduciary, unless and until the Plan Sponsor notifies the named fiduciary in writing of such appointment or delegation. 12.6 Written Directions

Whenever a named fiduciary or delegate must or may act upon the written direction of another named fiduciary or delegate, the named fiduciary or delegate is not required to inquire into the propriety of such direction and shall follow the direction unless it is clear on its face that the actions to be taken under that direction would be prohibited under the terms of this Plan. Moreover, such named fiduciary or delegate shall not be responsible for failure to act without written directions.

12.7 Co-Fiduciary Liability

A fiduciary shall not have any liability for a breach of fiduciary duty of another fiduciary, unless he participates knowingly in such breach, knowingly undertakes to conceal such breach, has actual knowledge of such breach and fails to take action to remedy such breach, or, through his negligence in performing his own specific fiduciary responsibilities, enables such other fiduciary to commit a breach of the latter's fiduciary duty.

12.8 Action by Plan Sponsor

ARTICLE 13

LEGAL NOTICES

13.1 HIPAA Privacy Regulation Requirements

This Plan has been modified as required under the Administrative Simplification requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA), to allow the Disclosure of Protected Health Information (PHI) as defined under HIPAA, to the Plan Sponsor and other parties as necessary to determine appropriate processing of claims.

Please refer to the Benefit Options Guide for details on the use of PHI.

13.2 Notice of Special Enrollment Rights for Health Plan Coverage

If you decline enrollment in the State of Arizona's health plan for you and your Dependents (including your Spouse) because of other health insurance or group health plan coverage, you or your Dependents may be able to enroll in the State of Arizona Employee's health plan without waiting for the next Open Enrollment period if you:

- Lose other health insurance or group health plan coverage. You must request enrollment within 31 days after the loss of other coverage.
- Gain a new Dependent as a result of marriage, birth, adoption or placement for adoption. You must request health plan enrollment within 31 days after the marriage, birth, adoption, or placement for adoption.
- Lose Medicaid or Children's Health Insurance Program (CHIP) coverage because you are no longer eligible. You must request medical plan enrollment within 60 days after the loss of such coverage.

If you request a change due to a special enrollment event within the 31-day timeframe, coverage will be effective on the date of birth, adoption or placement for adoption. For all other events, coverage will become effective the first day of the next month following your request for enrollment. In addition, you may enroll in the State of Arizona's health plan if you become eligible for a state premium assistance program under Medicaid or CHIP. You must request enrollment within 60 days after you gain eligibility for medical plan coverage. If you request this change, coverage will be effective the first day of the next month following your request for enrollment. Specific restrictions may apply, depending on federal and state law.

Note: If your Dependent becomes eligible for special enrollment rights, you may add the Dependent to your current coverage or change to another health plan.

13.3 Patient Protection & Affordable Care Act (PPACA) Notices

Notice of Rescission

Under the PPACA, ADOA Human Resources-Benefits cannot retroactively cancel or terminate an individual's coverage, unless the individual performs an act, practice, or omission that constitutes fraud, or unless the individual makes an intentional misrepresentation of material

fact, as prohibited by the terms of the plan or coverage. In the event that the ADOA Human Resources-Benefits rescinds coverage under the allowed grounds, affected individuals must be provided at least 30 days advance notice.

A cancellation or discontinuance of coverage is not a rescission if the cancellation or discontinuance of coverage has only a prospective effect; or the cancellation or discontinuance of coverage is effective retroactively to the extent it is attributable to a failure to timely pay required premiums or contributions towards the cost of coverage.

Form W-2 Notice

Pursuant to the PPACA for tax years starting on and after January 1, 2012, in addition to the annual wage and tax statement employers must report the value of each Employee's health coverage on form W-2, although the amount of health coverage will remain tax-free.

13.4 General COBRA Notice

This notice has important information about your right to COBRA continuation coverage, which is a temporary extension of coverage under the Plan. This notice explains COBRA continuation coverage, when it may become available to you and your family, and what you need to do to protect your right to get it. When you become eligible for COBRA, you may also become eligible for other coverage options that may cost less than COBRA continuation coverage.

The right to COBRA continuation coverage was created by a federal law, the Consolidated Omnibus Budget Reconciliation Act of 1985 (COBRA). COBRA continuation coverage can become available to you and other members of your family when group health coverage would otherwise end. For more information about your rights and obligations under the Plan and under federal law, you should review the Plan's Summary Plan Description or contact the ADOA Human Resources-Benefits.

You may have other options available to you when you lose group health coverage. For example, you may be eligible to buy an individual plan through the Health Insurance Marketplace. By enrolling in coverage through the Marketplace, you may qualify for lower costs on your monthly premiums and lower out-of-pocket costs. Additionally, you may qualify for a 30-day special enrollment period for another group health plan for which you are eligible (such as a Spouse's plan), even if that plan generally doesn't accept late enrollees.

What is COBRA continuation coverage?

COBRA continuation coverage is a continuation of Plan coverage when it would otherwise end because of a life event. This is also called a "qualifying event." Specific qualifying events are listed later in this notice. After a qualifying event, COBRA continuation coverage must be offered to each person who is a "qualified beneficiary." You, your Spouse and your Dependent Children could become qualified beneficiaries if coverage under the Plan is lost because of the qualifying event. Under the Plan, qualified beneficiaries who elect COBRA continuation coverage must pay for COBRA continuation coverage.

If you're an Employee, you'll become a qualified beneficiary if you lose your coverage under the Plan because of the following qualifying events:

- Your hours of employment are reduced, or
- Your employment ends for any reason other than your gross misconduct.

If you are the Spouse of an Employee, you will become a qualified beneficiary if you lost your coverage under the Plan because of the following qualifying events:

- Your Spouse dies;
- Your Spouse's hours of employment are reduced;
- Your Spouse's employment ends for any reason other than his or her gross misconduct;
- Your Spouse becomes entitled to Medicare benefits (under Part A, Part B, or both); or
- You become divorced or legally separated from your Spouse.

Your Dependent Children will become qualified beneficiaries if they lose coverage under the Plan because of the following qualifying events:

- The parent-Employee dies;
- The parent-Employee's hours of employment are reduced;
- The parent Employee's employment ends for any reason other than his or her gross misconduct;
- The parent-Employee becomes entitled to Medicare benefits (Part A, Part B, or both);
- The parents become divorced or legally separated; or
- The Child stops being eligible for coverage under the Plan as a "Dependent Child."

Sometimes, filing a proceeding in bankruptcy under Title 11 of the United States Code can be a qualifying event. If a proceeding in bankruptcy is filed with respect to the Benefit Options Plan,

and the bankruptcy results in a loss of coverage of any Retired Employee covered under the Plan, the Retired Employee will become a qualified beneficiary. The Retired Employee's Spouse, Surviving Spouse, and Dependent Children will also become qualified beneficiaries if bankruptcy results in the loss of their coverage under the Plan.

13.5 Women's Health and Cancer Rights Act Notice

The Women's Health and Cancer Rights Act of 1998 (WHCRA) was signed into law on October 21, 1998. The WHCRA requires group health plans that provide coverage for mastectomies to also provide coverage for reconstructive surgery and prostheses following mastectomies.

Because your group health plan offers coverage for mastectomies, WHCRA applies to your Plan. The law mandates that a participant who is receiving benefits, on or after the law's effective date, for a covered mastectomy and who elects breast reconstruction in connection with the mastectomy will also receive coverage for:

1. Reconstruction of the breast on which the mastectomy has been performed;
2. Surgery and reconstruction of the other breast to produce a symmetrical appearance; and
3. Prosthesis and treatment of physical complications of all stages of mastectomy, including lymphedemas.

This coverage will be provided in consultation with the patients and the patient's attending physician and will be subject to the same annual deductible, coinsurance and/or copayment provisions otherwise applicable under the Plan.

13.6 Newborns' and Mothers' Health Protection Act of 1996 Notice (the Newborns' Act)

Under federal law, group health plans and health insurance issuers offering group health insurance generally may not restrict benefits for any hospital length of stay in connection with childbirth for the mother or the newborn Child to less than 48 hours following a vaginal delivery, or less than 96 hours following a cesarean section. However, the Plan or issuer may pay for a shorter stay if the attending physician (e.g., your physician, nurse, or a physician assistant), after consultation with the mother, discharges the mother or her newborn earlier. Also, under federal law, plans and insurers may not set the level of benefits or out-of-pocket costs so that any later portion of the 48-hour stay is treated in a manner less favorable to the mother or newborn than any earlier portion of the stay.

In addition, a plan or issuer may not, under federal law, require that a physician or other health care provider obtain authorization for prescribing a length of stay up to 48 hours (or 96 hours). However, to use certain providers or facilities, or to reduce your out-of-pocket costs, you may be required to obtain precertification. If you have any questions, contact Benefit Options at 602-542-5008 or 1-800-304-3687 or email Benefit Options at Benefits@azdoa.gov.

13.7 Your Rights and Protections Against Surprise Medical Bills

When you get emergency care or get treated by an Out-of-Network provider at an In-Network hospital or ambulatory surgical center, you are protected from surprise billing or balance billing.

What is “balance billing” (sometimes called “surprise billing”)?

When you see a doctor or other health care provider, you may owe certain out-of-pocket costs, such as a copayment, coinsurance, and/or a deductible. You may have other costs or have to pay the entire bill if you see a provider or visit a health care facility that isn’t in your health plan’s network.

“Out-of-Network” describes providers and facilities that haven’t signed a contract with your health plan. Out-of-Network providers may be permitted to bill you for the difference between what your plan agreed to pay and the full amount charged for a service. This is called “balance billing.” This amount is likely more than In-Network costs for the same service and might not count toward your annual out-of-pocket limit.

“Surprise billing” is an unexpected balance bill. This can happen when you can’t control who is involved in your care—like when you have an emergency or when you schedule a visit at an In-Network facility but are unexpectedly treated by an Out-of-Network provider.

You are protected from balance billing for:

Emergency services

If you have an emergency medical condition and get emergency services from an Out-of-Network provider or facility, the most the provider or facility may bill you is your plan’s In-Network cost-sharing amount (such as copayments and coinsurance). You can’t be balance billed for these emergency services. This includes services you may get after you’re in stable condition, unless you give written consent and give up your protections not to be balance billed for these post-stabilization services.

Certain services at an In-Network hospital or ambulatory surgical center

When you get services from an In-Network hospital or ambulatory surgical center, certain providers there may be Out-of-Network. In these cases, the most those providers may bill you is your plan’s In-Network cost-sharing amount. This applies to emergency medicine, anesthesia, pathology, radiology, laboratory, neonatology, assistant surgeon, hospitalist, or intensivist services. These providers can’t balance bill you and may not ask you to give up your protections not to be balance billed.

If you get other services at these In-Network facilities, Out-of-Network providers can’t balance bill you, unless you give written consent and give up your protections.

You’re never required to give up your protections from balance billing. You also aren’t required to get care Out-of-Network. You can choose a provider or facility in your plan’s network.

When balance billing isn't allowed, you also have the following protections:

- You are only responsible for paying your share of the cost (like the copayments, coinsurance, and deductibles that you would pay if the provider or facility was In-Network). Your health plan will pay Out-of-Network providers and facilities directly.
- Your health plan generally must:
 - Cover emergency services without requiring you to get approval for services in advance (prior authorization).
 - Cover emergency services by Out-of-Network providers.
 - Base what you owe the provider or facility (cost-sharing) on what it would pay an In-Network provider or facility and show that amount in your explanation of benefits.
 - Count any amount you pay for emergency services or Out-of-Network services toward your deductible and out-of-pocket limit.

The Summary of Benefits and Coverage (SBC) document will help you choose a health [plan](#). The SBC shows you how you and the [plan](#) would share the cost for covered health care services. **NOTE:** Information about the cost of this [plan](#) (called the [premium](#)) will be provided separately. This is only a summary. For more information about your coverage, or to get a copy of the complete terms of coverage contact www.benefitoptions.az.gov or call 1-800-304-3687 or 602 542-5008 to request a copy. For general definitions of common terms, such as [allowed amount](#), [balance billing](#), [coinsurance](#), [copayment](#), [deductible](#), [provider](#), or other underlined terms see the Glossary. Important Questions	Answers	Why This Matters:
What is the overall deductible?	In-network: Tier 1 \$200 employee / \$400 family; Tier 2 \$1,000 employee / \$2,000 family. Out-of-network: Tier 3 \$5,000 employee / \$10,000 family.	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan , each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible . Tier 1 deductible applies to Tier 2. Tier 2 deductible applies to Tier 1.
Are there services covered before you meet your deductible?	Yes, In-network Preventive care services and prescription drug coverage are covered before you meet your deductible .	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services and prescription drug coverage without cost sharing and before you meet your deductible . See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit for this plan?	Yes. In-network \$7,350 employee / \$14,700 family Out-of-network \$8,700 employee / \$17,400 family	The out-of-pocket limit is the most you could pay in a year of covered services. If you have other family members in this plan , they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit?	Premiums , balance-billing charges, and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .
Will you pay less if you use a network provider?	Yes. See www.benefitoptions.az.gov or call 1-602-542-5008 or 1-800-304-3687 for a list of network providers .	This plan uses a provider network . You pay the least if you use a provider in Tier 1. You pay more if you use a provider in Tier 2. You will pay the most if you use a Tier 3 out-of-network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist?	No	You can see the specialist you choose without a referral .

 All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies.
