Request for Bids for an Electron Beam Evaporation System

ADDENDUM #1

**Please mark all proposal submission
Envelopes with the following information**

**Sealed RFB # S192403
Due on September 19, 2023 no later than 2:00 PM, MST**

The following questions were received by the close of the technical question period, September 8, 2023 at 12:00PM MST:

1. Per 3.7.8 Attention to Terms and Conditions, the successful Vendor is expected to enter into a form of agreement approved by the Arizona Board of Regents. The University agreement terms and conditions included in this RFB are intended to be incorporated into this agreement. However, we would like an opportunity within the agreement to negotiate a reasonable overall limitation on Vendor's liability not to exceed the order value as well as implementing Vendor's standard warranty.

The University is willing negotiate the terms of the RFP with the successful vendor.

End of addendum, all else remains the same.
