The project will include further demolition of the previous foundation and preparation for the new structure, preparing construction documents, securing necessary permits, securing engineering services as required, and arranging inspections.
- 1.2 Coverage and Participation.** The intended coverage of this RFP and any Agreement resulting from this solicitation shall be for the use of all Departments at the University of Arizona. Unless otherwise specifically proposed by the vendor, the University reserves the right to hold such pricing and/or revenue proposal as effective for the entire intended contract term. **3.8.3 University's Right to Use Vendor's Ideas / Proprietary Information.** If the vendor needs to submit proprietary information with the proposal, the vendor **shall ensure that it is enclosed in a separate redacted file from the proposal and that it is clearly designated and conspicuously labeled as such. The vendor may submit a full PDF for the committee and a redacted file for proprietary and confidential information within the guidelines below.**

The University shall have the right to use any ideas that are contained in any proposal received in response to this RFP, along with any adaptation of such ideas. Selection or rejection of the proposal shall not affect the University's right of use. ### **5.1 Background and Summary of Tasks:**

The University of Arizona, Steward Observatory (UASO or University) is soliciting Proposals from qualified vendors to provide General Contractor services to rebuild a dormitory on Kitt Peak that was destroyed in the Contreras fire in June 2022. The dormitory was part of the University of Arizona Radio Observatory (ARO) 12-meter Telescope site. **University leases the telescope site from AURA at Kitt Peak National Observatory (KPNO). AURA is the formal lease holder for the entire KPNO located on the lands of the Tohono O’odham Nation. As such, University and all contractors must comply with the AURA lease agreements and Tohono O’odham regulations.** Location coordinates are: 31.952624, -111.615051.

Currently there is a mandatory ARO 12-meter Telescope site visit at KPNO. Please view this website for directions: or reference the location map, referred to as Attachment A.

This project includes all civil engineering, analysis of water drainage, demolition of remaining foundation, back fill and preparation of building site, with any necessary testing of existing and fill soil, including compaction report. Vendors are encouraged to identify A) a modular building or B) new construction for the dormitory. Both options must meet the required dormitory specifications and only one Option will be selected.
