Request for Bids for Bulk Helium

ADDENDUM #1

**Please mark all proposal submission
Envelopes with the following information**

**Sealed RFP # L292603
Due February 9, 2026 no later than 2:00 PM, MST**

The following questions were received prior to the close of the Technical Question period on January 20, 2026, at 12:00 PM MST:

1. May I have a Word version of the Scope of Work portion so that I may fill it in with your required information?
 - a. Word version is attached.
2. I'm requesting to be present via Zoom during the bid acceptance on 2/9/26.
 - a. There is customarily not a Zoom now that the bids are submitted electronically. Screenshots of the Box opening can be provided if requested so that all submissions are available after RFB Closure.
3. The helium RFP states you require 99.997% purity with a test report. Is that a Certificate of Analysis? Do you have a specification or a list of impurities you need measured?
 - a. Yes, we would like a Certificate of Analysis. No specifications or list of impurities we need measured. We are looking for UHP Grade helium.
4. It states you require the bidder to name you as additionally insured. We have reservations about that. Would you accept an exception to this requirement?
 - a. No, we would not accept an exception to this requirement.

End of addendum, all else remains the same.
