RFP L342607_Phase 1 Clinical Trial Services — First-in-Human Single and Multiple Ascending Dose (SAD/MAD) Study in Healthy Volunteers	RFX0000021	Request For Proposal
Project Summary		
The Arizona Board of Regents (ABOR), on behalf of the University of Arizona (the “University”), is soliciting proposals from qualified contract research organizations (CROs) to conduct a Phase 1, first-in-human, randomized, double-blind, placebo-controlled single-ascending-dose (SAD) and multiple-ascending-dose (MAD) study of the investigational drug PNA5 (immediate-release subcutaneous formulation) in healthy adult volunteers, under an active United States Investigational New Drug (IND) application. The study supports development of a therapy for vascular contributions to cognitive impairment and dementia (VCID). The study is funded under a multi-year National Institutes of Health (NIH) cooperative agreement (UG3/UH3 mechanism), and the selected Vendor must be able to support milestone-based contracting and invoicing across multiple NIH budget periods.
